St. Tammany Parish Fire District No. 2

Independent Auditor's Report

We have audited the accompanying financial statements of the governmental activities and the major fund, which collectively comprise the basic financial statements of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 (the District), a component unit of the St. Tammany Parish Council, as of December 31, 2005, and for the year then ended. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major fund of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 as of December 31, 2005, and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 4 and 5 and the budgetary comparison schedules identified on page 24 are not required parts of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consist primarily of inquiries of management regarding the methods of measurement and presentation of the supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying information listed as other supplemental information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements of ST. TAMMANY PARISH FIRE DISTRICT NO. 2. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

In accordance with Government Auditing Standards, we have also issued our report dated May 4, 2006, on our consideration of the ST. TAMMANY PARISH FIRE DISTRICT NO. 2's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

REQUIRED SUPPLEMENTAL INFORMATION (PART I)
MANAGEMENT'S DISCUSSION AND ANALYSIS

ST. TAMMANY PARISH FIRE DISTRICT NO. 2 MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2005

As management of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 (the District), we offer this discussion and analysis of the District's financial activities for the fiscal year ended December 31, 2005.

The Management's Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Government Accounting Standards Board (GASB) in their Statement No. 34 issued in June 1999.

As with other sections of this financial report, the information contained with this MD&A should be considered only a part of the greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and the other Required Supplemental Information that is provided in addition to this MD&A.

Financial Highlights

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 7 and 8) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements begin on page 10. These statements tell how these services were financed in the short-term as well as what remains for future spending. The District is a component unit of the St. Tammany Parish Council, Its operations are conducted through a general fund.

A summary of the basic government-wide financial statements is as follows:

SUMMARY OF STATEMENT OF NET ASSETS

	2005	2004
ASSETS:	•	
Other Assets	\$ 968,152	\$ 730,004
Capital Assets (Net of		
Accumulated Depreciation)	1,338,466	1,377,353

SUMMARY OF STATEMENT OF ACTIVITIES

	2005	2005 2004	
REVENUES:			
General Revenues			
Property Taxes	\$ 809,568	\$ 617,134	\$ 192,434
State Revenue Sharing	23,126	23,126	-
Other	46,593	35,079	11,514
Grants and Contributions	91,611	106,192	(14,581)
Total Revenues	970,898	781,531	189,367
EXPENSES:			
Fire Protection	773,749	676,339	97,410
Interest on Long-Term Debt	10,437	7,881	2,556
Total Expenses	784,186	684,220	99,966
Change in Net Assets	\$ 186,712	\$ 97,311	\$ 89,401

Capital Assets and Debt

In 2005 capital assets decreased by \$38,897, which was the result of \$34,145 in capital additions and \$73,042 in depreciation. In 2004, capital assets increased by \$106,393, which was the result of \$162,329 in capital additions and \$55,936 in depreciation. In 2005, total debt decreased by \$77,631, which was the result of scheduled principal payments. In 2004, total debt increased by \$94,827, which was the result of the issuance of \$143,000 certificate of indebtedness less principal payments of \$48,173.

General Fund Budgetary Highlights

In 2005, actual revenues exceeded budget by \$322,898 and expenditures exceeded budget by \$168,334. In 2004, actual revenues exceeded budget by \$174,531 and actual expenditures exceeded budget by \$215,207. These variances were due to the District not amending its budget for increases in Ad Valorem taxes and for Federal Emergency Management Agency reimbursements.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Chief Mike Stein, P.O. Box 795, Madisonville, Louisiana 70447.

ST. TAMMANY PARISH FIRE DISTRICT NO. 2 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2005

Amounts reported for governmental activities in the Statement of Activities are different because:

Net Change in Fund Balances - Total Governmental Fund	\$ 154,564
Governmental funds report capital outlays as expenditures.	
However, in the Statement of Activities the cost of those	
assets is allocated over their estimated useful lives and	
reported as depreciation expense. This is the amount by	
which depreciation exceeded capital outlays in the current period,	(38,887)
Change in Compensated Absences Payable	(6,596)
The issuance of long-term debt (e.g., certificates of indebtedness, leases) provides current financial resources to governmental funds, while the	
repayment of the principal of long-term debt consumes the current	
financial resources of governmental funds. Neither transaction,	
however, has any effect on net assets. Also, governmental funds	
report the effect of issuance costs, premiums, discounts, and similar	
items when debt is first issued, whereas these amounts are deferred	
and amortized in the Statement of Activities. This amount is the net	

Change in Net Assets of Governmental Activities Item

related items.

effect of these differences in the treatment of long-term debt and

NOTE A

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 (the District) conform to accounting principles generally accepted in the United States of America applicable to government entities. The following is a summary of significant accounting policies:

HISTORY

The District was created by the St. Tammany Parish Council on January 15, 1953. The District serves the area of Ward 1 of St. Tammany Parish.

REPORTING ENTITY

The District is governed by a Board of Commissioners, which is appointed by the Parish Council. As the governing authority of the Parish, for financial reporting purposes, the St. Tammany Parish Council is the financial reporting entity for St. Tammany Parish. The financial reporting entity consists of (a) the primary government (Parish Council) (b) organizations for which the primary governments are financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the St. Tammany Parish Council for financial reporting purposes. The basic criterion for including a potential component unit with the reporting entity is financial accountability.

The District is a component unit of the Parish because the Parish Council appoints all members of the District and as such is financially accountable for the District. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Parish Council, the general government services provided by that governmental unit, or the governmental units that comprise the financial reporting entity.

BASIS OF PRESENTATION

The accompanying basic financial statements of the ST. TAMMANY PARISH FIRE DISTRICT NO. 2 have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", issued in June 1999.

NOTE A

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF PRESENTATION (Continued)

Government-Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Assets and the statement of Changes in Net Assets) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental fund.

Fund Financial Statements (FFS)

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The General Fund of the District is classified as governmental. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the District or its total assets, liabilities, revenues, or expenditures of the individual governmental fund is at least 10 percent of the corresponding total for all governmental funds.

The District reports the following major governmental funds:

The General Fund is the primary operating fund of the District. It accounts for all the financial resources except those that are required to be accounted for in other funds.

MEASUREMENT FOCUS/BASIS OF ACCOUNTING

The amounts reflected in the governmental fund financial statements are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to the government-wide financial statements.

NOTE A

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

MEASUREMENT FOCUS/BASIS OF ACCOUNTING (Continued)

The amounts reflected in the governmental fund financial statements use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the fiscal year-end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt, which are recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The government-wide financial statements are accounted for using an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets and financial position. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.

The government-wide financial statements are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

BUDGET

The Board of Commissioners adopted a budget for the General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget and public hearings on the budget prior to adoption. Any amendment involving increases in expenditures must be approved by the Board. Budgeted amounts included in the accompanying financial statements include all amendments. All budgeted amounts which are not expended, or obligated through contracts, lapse at year-end. The General Fund budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America. The District did not amend its budget during 2005.

CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in interest-bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the municipality may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days, however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at market value.

NOTE A

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CAPITAL ASSETS

All fixed assets are recorded at historical costs. Depreciation of all exhaustible fixed assets is charged as an expense against their operations.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. The District capitalizes equipment in excess of \$2,500. The following estimated useful lives and methods are used to compute depreciation:

Buildings and Improvements	10 - 30 Years	Straight Line
Vehicles	10 - 15 Years	Straight Line
Machinery and Equipment	5 - 15 Years	Straight Line
Office Equipment	5 - 10 Years	Straight Line

Depreciation expense amounted to \$73,042 for the year ended December 31, 2005.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

USE OF RESTRICTED/UNRESTRICTED NET ASSETS

When an expense is incurred for purposes for which both restricted and unrestricted net assets are available, the District's policy is to apply restricted net assets first.

NOTE B

AD VALOREM TAXES

Property taxes for the operations of the District are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the St. Tammany Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A reevaluation of all property is required to be completed no less than every four years. The last reevaluation was completed as of January 1, 2004. Taxes are due and payable December of the following year.

NOTE C

CASH AND CASH EQUIVALENTS

The following is a summary of cash and cash equivalents (book balances) at December 31, 2005:

Demand Deposits

\$ 49,884

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2005, the District has \$60,676 in deposits (collected bank balances), which are fully secured by federal deposit insurance.

NOTE D

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended December 31, 2005, the District carried insurance through various commercial carriers to cover all risks of losses. The District has no settled claims resulting from these risks that exceeded its commercial coverage in any of the past three fiscal years.

NOTE E

CAPITAL ASSETS

Capital assets activity for the year ended December 31, 2005 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	
Capital Assets Not Being Depreciated:					
Land	<u>\$ 566,400</u>	<u>s - </u>	<u>s - </u>	<u>\$ 566,400</u>	
Capital Assets Being Depreciated:

Office Equipment	(15,552)	(617)		(16,169)	
Total Accumulated Depreciation	(345,652)	(73,042)		(418,694)	
Total Capital Assets Being Depreciated -					
Net	810,953	(38,897)		772,066	
Capital Assets - Net	\$ 1,377,353	\$ (38,897)	<u>\$</u>	\$ 1,338,466	

NOTE F

INVESTMENTS

Investments of \$35,450, which are stated at market using published quotes as of December 31, 2005, are in the Louisiana Asset Management Pool, Inc. (LAMP), a local government investment pool. In accordance with GASB Codification Section I50.126, the investment in LAMP is not categorized in the three risk categories provided by GASB Codification Section I50.125 because the investment is in a pool of funds and, therefore, not evidenced by securities that exist in physical or book entry form.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities; as well as repurchase agreements collateralized by those securities.

Effective August 1, 2001, LAMP's investment guidelines were amended to permit the investment in government-only money market funds. In its 2001 Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955(A)(1)(h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "Investment grade (A-1/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMP's Investment Guidelines were amended to allow the limited investment in A-1 or A-1+ commercial paper.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the State Treasurer and the Board of Directors. LAMP is not registered with the SEC as an investment company.

NOTE G

LOUISIANA FIREFIGHTERS RETIREMENT SYSTEM PENSION NOTE

Plan Description. Substantially all employees of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 are members of the Louisiana Firefighters Retirement System (System), a cost-sharing, multiple-employer, defined benefit pension plan administered by a separate board of trustees.

Membership in the Louisiana Firefighters Retirement System is mandatory for all full-time firefighters employed by a municipality, parish, or fire protection district that did not enact an ordinance prior to January 1, 1980, exempting itself from participation in the System. Employees are eligible to retire at or after age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to three and one-third percent of their final-average salary for each year of creditable service, not to exceed 100 percent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Firefighters' Retirement System, Post Office Box 94095, Baton Rouge, Louisiana 70804, or by calling (225) 925-4060.

Funding Policy. System members are required by state statute to contribute 8% of their annual covered salary and ST. TAMMANY PARISH FIRE DISTRICT NO. 2 is required to contribute at an actuarially determined rate. The current rate is 18% of annual covered payroll. The contribution requirements of System members and ST. TAMMANY PARISH FIRE DISTRICT NO. 2 are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. ST. TAMMANY PARISH FIRE DISTRICT NO. 2's contributions to the System for the years ending December 31, 2005, 2004, and 2003 were \$60,156, \$44,157, and \$33,984, respectively.

NOTE I

2% FIRE INSURANCE TAX

The District is eligible and receives a pro-rata share of the fire insurance tax collected by the State of Louisiana. The amounts received by the District are based on the population of the areas that they serve. In accordance with the Revised Statutes, such money shall be used only for the purpose of "rendering more efficient and efficacious" fire protection, as the District shall direct.

NOTE J

NOTE K

HURRICANE KATRINA

On August 29, 2005, Hurricane Katrina severely impacted St. Tammany Parish. Two of the District's buildings were damaged during the hurricane. The District received an insurance reimbursement of \$83,384. As the repairs to the buildings were not made until 2006, the insurance reimbursement has been recorded as deferred revenue. The District also received a reimbursement from the Federal Emergency Management Agency of \$91,611 for employee overtime, equipment and other expenses related to the hurricane. At this time, the District does not expect that its future revenues will be affected.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners

St. Tammany Parish Fire District No. 2

We have audited the financial statements of ST. TAMMANY PARISH FIRE DISTRICT NO. 2 as of and for the year ended December 31, 2005, and have issued our report thereon dated May 4, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the ST. TAMMANY PARISH FIRE DISTRICT NO. 2's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the ST. TAMMANY PARISH FIRE DISTRICT NO. 2's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants; noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and are described in the following paragraph.

For the year ended December 31, 2005, actual expenditures of \$816,334 exceeded budgeted appropriations of \$648,000 resulting in an unfavorable variance of \$168,334 (25.9% unfavorable). Louisiana Revised Statute 39:1310 requires the District to amend its budget when it determines that actual expenditures are going to exceed budgeted appropriations by more than 5%. The variance exceeded 5%. Also, the District did not publish an advertisement that the budget would be available for public inspection.

This report is intended for the information of management and the Louisiana Legislative Auditor. However, this report is a matter of public record and its distribution is not limited.

To Whom It May Concern:

I am writing in response to the finding included in our financial statements for the year ended December 31, 2005. Our corrective action plan is as follows:

2005-1 Budget Amendment

The budget overage in the general fund was the result of expenditures related to Hurricane Katrina. The District will monitor its budget more closely and will amend the budget as necessary as required by law.

Sincerely,

John Beyl Chairman
